

# Improving your impact as care teams by staying better connected with patients.

**By using HealthLoop, our LifeBridge Health care teams can further support patient populations outside of the care setting.**

HealthLoop's software solution enables care teams to engage all patients before and after admission through automated daily check-ins. By sending the right information at the right time, HealthLoop identifies those patients who need help in real-time, allowing care teams to reach more patients and proactively intervene before costs and complications escalate.

## Elevate Patient Experience & Grow Market Share

Reach more patients, deliver higher quality interactions, and increase patient referrals and market share growth.

majority of patients are "Extremely likely to recommend" their provider

11%

increase in referral volume per star

## Increase Reimbursement & Revenue Potential

Increase revenue under fee for service and value based care by billing for Remote Patient Monitoring (CPT 99091<sup>2</sup>), or receiving full credit for Improvement Activities under MIPS and other programs that incentivize PROM collection.

### Claim Credit

for Improvement Activities under MIPS<sup>3</sup> with HealthLoop

74%

average PROM Capture Rate after 12 months

2 \$114 per episode reimbursement increase using CPT 99091. 3 Improvement Activity Beneficiary Engagement: Engage Patients and Families to Guide Improvement in the System of Care (IA\_BE\_14)\* Link: <https://qpp.cms.gov/mips/improvement-activities>

## Maximize Care Management Performance

Remote guidance and monitoring tools cover your blind spots and enhance your clinical quality.

reduction in complications

reduction in readmissions

~\$4,000 savings per readmission

## Optimize Care Team Efficiency

Improve patient and provider communication and coordination without adding labor costs.

68%
