SUBJECT: Gastrointestinal Tract

Brushings of esophageal, gastric or intestinal lesion may be submitted for cytologic examination. A Cytopathology requisition must be completed and submitted with the specimen.

The brush should be submitted in a conical tube containing 25 ml of Cyolyt™ Solution (provided by the laboratory).

The container must be labeled with the following information:

- Patient name
- Medical record number
- Specimen source
- Date and time of collection

The specimen should be submitted immediately to the laboratory.
