

LifeBridge Health Medicare Shared Savings Program ACO

Key Points

LifeBridge Health was accepted to participate as a Medicare Shared Savings Program Accountable Care Organization (ACO) beginning in January 2015. In doing so, LifeBridge sought to ensure we can maximize the potential benefits associated with high quality, efficient care delivered to our Medicare beneficiaries, while minimizing potential risks and reporting burden in the context of a rapidly evolving health care payment and delivery environment.

What is a Medicare Shared Savings Program/ACO?

- The Centers for Medicare & Medicaid Services established the Medicare Shared Savings Program ACO model under the Affordable Care Act. **An ACO refers to a group of hospitals, physicians, and others involved in patient care that work together to coordinate care for the Medicare Fee-For-Service patients they serve.**
- The goal of an ACO is to deliver seamless, high-quality care for Medicare beneficiaries, instead of the fragmented care that can result from a Fee-For-Service payment system. **Medicare will reward ACOs that lower their growth in health care costs while demonstrating performance on nationally accepted quality measures focused on preventive health and chronic disease management.**
- **Over 480 Shared Savings Program ACOs are in place nationally**, accounting for over 9 million assigned beneficiaries in 50 states, the District of Columbia and Puerto Rico.
- **LifeBridge participates in the “Track One” type of Medicare Shared Savings Program** in which participating providers and suppliers can benefit from any shared savings achieved with Medicare, yet are not at risk for any shared losses.

Benefits of ACO Participation and Successful ACO Quality Reporting

- **Potential for shared savings from Medicare when the ACO can demonstrate lower growth in health care costs and quality measure performance.**
- **ACO quality measure reporting also satisfies the quality component of the Merit-based Incentive Payment System (MIPS).** Medicare scores our ACO participants as a group for MIPS, with all participants receiving the same MIPS score. Groups demonstrating exceptional performance will be eligible for significant positive payment adjustments to the 2019 fee schedule.
- **Removes provider/practice-level reporting burden associated with MIPS quality reporting requirements.** The LBH ACO centrally reports 15 ACO quality measures for the group.
- ACO participation **automatically satisfies the Improvement Activities portion of MIPS.**
- ACO quality measures are nationally accepted indicators related to preventive care and screening for and management of chronic conditions. **Improvement on ACO measures can serve double-duty in achieving goals for other payers and among other existing and upcoming provider-based quality measurement initiatives.**

LifeBridge Health Medicare Shared Savings Program ACO

LifeBridge's Medicare Shared Savings Program/ACO – Current Status

Calendar Year 2015
<ul style="list-style-type: none">• 2015 was LifeBridge's first year in the Medicare Shared Savings Program. Our ACO encompassed most LifeBridge-employed providers and over 15,000 attributed Medicare beneficiaries who received the bulk of primary care services from one or more of LifeBridge providers.• LifeBridge successfully met its ACO quality measure reporting requirement for 2015. Performance on 17 clinical quality measures for a sample of attributed beneficiaries was abstracted by manual chart review and submitted to Medicare.• The ACO quality requirement in Year 1 (2015) was for reporting only. In Years 2 and 3, Medicare will assess our performance on quality measures compared to national benchmarks.
Calendar Year 2016
<ul style="list-style-type: none">• In 2016, LifeBridge's ACO includes all LifeBridge-employed providers and over 18,000 attributed Medicare beneficiaries (note: does not include Carroll, which has its own ACO).
Calendar Year 2017
<ul style="list-style-type: none">• Focus areas for quality measure documentation and performance improvement include:<ul style="list-style-type: none">○ Depression Screening and Follow Up - PHQ 2/9 (ACO #18)○ Screening for Future Falls Risk (ACO #13)○ Diabetes Eye Exam (ACO #41)○ Breast Cancer Screening (ACO #20)○ Colorectal Cancer Screening (ACO #19)

Going Forward

We aim to further engage you and provide regular communications about priorities, best practices, our progress, and how we can work together to ensure the best care for our beneficiaries.
