

# Coping with Worry and Stress - Wellness Tips

Welcome to your daily dose of wellness!

Today's Message: **MAY THE FOURTH**

Several weeks ago in a galaxy far too close, sadly Coronavirus became a pandemic. Whether you are on the front lines of one of our outstanding facilities supporting patients, staying home supporting caregivers and the business, or on furlough due to lack of work, you are part of the LifeBridge Health "Care Bravely" Family. We've been sharing daily tips and resources with you and we hope you've found something helpful for your current situation. The themes have been centered on *body, heart, head, and spirit*.

Today's is May 4, which has in recent decades become affectionately known as STAR WARS day, as the date relates to the mainstay phrase – "May the force be with you." For those of you who have never seen a Star Wars movie, the force is described as "an energy field created by all living things. It surrounds us, penetrates us, and binds the galaxy together." This is kind of a nice thought of unity isn't it? In the movie series, the Jedi use the power of the force for good, and the Dark side uses it for evil. Yes, it's make believe, but let's escape from our reality for a moment and explore some fun links and some sage advice from several of the Star Wars Saga characters. Check out these links! Enjoy!
