

LIFE AFTER DISCHARGE

Three months after discharge we follow up with our patients to see how they are doing on their wellness journey. Below is the yearly summary:

	Yes	No
Have you been diagnosed with aspiration pneumonia since your discharge from the Levindale inpatient unit?	1%	99%
Have you had a fall since discharge from the Levindale inpatient unit?	32%	68%
Of the 32% of patients that had a fall since discharge from Levindale, were they injured as a result of the fall?	18%	82%
Have you had any injuries (other than from a fall) since being discharged from the Levindale inpatient unit?	0%	100%

Have you had any unplanned medical visits to your doctor, emergency room, or urgent care since your discharge from the Levindale inpatient unit

■ Yes ■ No
