

LEVINDALE WELCOMES YOU!

We are delighted to welcome visitors back to Levindale! Although you may visit your loved one, there are regulations by which we must abide. Any visitor who does not follow these regulations will be asked to leave and may forfeit future opportunities to visit.

FOR VISITORS TO OUR NURSING CENTER

- Visitation may occur between the hours of 10am and 6pm
- Only one person will be allowed to visit the resident/patient per day.
- All visitors will be screened (including temperature) and provided a mask (which they must wear over the nose and mouth) and face shield or goggles.
- Visitation will not be available for residents or patients who are COVID-19 positive and are not considered recovered, or who are in quarantine and have not met criteria to be released from quarantine.
- Outdoor visits are still available but need to be scheduled due to space constraints.
- You may purchase food in the cafeteria or gift shop but please do not eat in the patient's room.

If the resident has been vaccinated for COVID19:

- Visitation may occur in the resident/patient's room.
- Visitors must go directly to the resident/patient's room and not walk-through other units or attempt to visit other residents.
- In a semi-private room, please do NOT sit near the other patient. We will pull the curtain between bed A and bed B.
- **If your loved one is fully vaccinated – your loved one may choose to have physical contact with you. Feel free to hug and hold hands!**

If the resident has NOT been vaccinated for COVID19:

- Visitation will not be permitted in the resident/patient's room. Visitation will occur in our visitor center located in the Town Center lobby.
- Visitation must be scheduled. The schedule can be found on our website here: <https://www.lifebridgehealth.org/Levindale/LevindaleFamilyUpdates.aspx>
- Residents/patients who are bed-bound and not vaccinated will be permitted compassionate visits on occasion and must be scheduled. Please reach out to the unit manager.
- If your loved one is not fully vaccinated – you must not have physical contact and should social distance as space permits. **Should your loved one want to be vaccinated, Levindale will make that happen.**

CARE BRAVELY

FOR VISITORS TO OUR HOSPITAL

- **Due to the type of milieu in the Brain Health Units and the efforts in place to mitigate COVID19 outbreaks, visitation is not allowed on those units.**
- Visitation on HICU units may occur between the hours of 10am and 6pm
- Only one person will be allowed to visit the patient per day.
- All visitors will be screened (including temperature) and provided a mask (which they must wear over the nose and mouth) and face shield or goggles.
- Visitation will not be available for patients who are COVID-19 positive and are not considered recovered, or who are in quarantine and have not met criteria to be released from quarantine.
- You may purchase food in the cafeteria or gift shop but please do not eat in the patient's room.
- Visitation must occur in the patient's room.
- Visitors must go directly to the patient's room and not walk-through other units or attempt to visit other patients.
- In a semi-private room, please do NOT sit near the other patient. We will pull the curtain between bed A and bed B.

Thank you for your patience and adherence to the state and federal regulations that we are required to uphold. Please ask questions – help us to work through any issues.

VISITATION MAY CEASE if one of our staff or one of our residents should test COVID19 positive. To stay up to date on visitor restrictions please call **410.601.2400**.

You may also call the unit to inquire of any visitation changes in policy.

For more information on COVID-19 go to:

<http://www.lifebridgehealth.org/main/coronaviruspreparedness.aspx>

Thank you for your continued support.
