

SUMMER NURSE INTERNSHIP PROGRAM

at Sinai Hospital, Northwest Hospital,
Grace Medical Center and Levindale

LifeBridge Health offers a nurse internship program for senior nursing students starting June 3, 2024.

The 10-week program, consisting of 36 clinical hours, offers individual and group support in cultivating professional and educational growth, helping students bridge the academic-practice gap in their knowledge, skills and professional practice. Participating units include acute care, critical care, med-surg/telemetry, women's services and pediatrics.

Employment opportunities will be available to eligible candidates upon successful completion of the internship program.

To qualify, you must:

- Be in your final year of ADN or junior year of BSN
- Have your CNA license as well as a CPR card certified by the American Heart Association
