

At the LifeBridge Health Heart Failure Clinic, nurse practitioners collaborate with the patient’s cardiologist and PCP to improve quality of life and prevent hospital admissions. We titrate guideline directed medical therapy, educate patients about heart failure, and assist with care coordination including pharmacy assistance programs. We offer post-hospital discharge, routine follow-up, and urgent appointments including IV diuresis. The medical director, a board-certified cardiologist, provides additional leadership and oversight. The Heart Failure Clinic is located at Sinai, Northwest, and Carroll Hospitals.

Patient information:

Name		Birthdate	
Address			
City	County	State	Zip
Best Phone Number to Reach Patient		Cell Phone or Alternate Phone Number	
Home Email		Primary Problem	

Reason for Referral:

- Heart Failure
