About the Artist

David Paul Bacharach of Bacharach Metals crafted the Levindale Auxiliary Sensory Garden Donor Wall. The Baltimore artist used vibrant, reflective woven copper and steel, coupled with tinted lacquers and patinas, to design his one-of-a-kind work of art.

Enriching the lives

Thanks to the Levindale Auxiliary's generous donation, our unique Sensory Garden was created and designed to awaken all five senses with beautiful greenery, aromatic flowers, appetizing herbs, tranquil waterfalls, soothing music and colorful lights. This retreat is based on similar models in the United States and Israel.

To keep projects like this blooming, the Levindale Auxiliary Donor Wall recognizes supporters like you whose gifts provide services and programs that bring joy, dignity and pride to the lives of our residents.
