

REPORT TO NURSES STATION FOR INSTRUCTIONS BEFORE ENTERING ROOM

Droplet + Standard Precautions

1. **Perform hand hygiene** before entering **AND** before leaving the room.

2. **Wear a mask** when entering the room.
3. **Wear eye protection** when entering the room.

4. **Use patient-dedicated equipment, single-use disposable equipment, or clean and disinfect shared equipment with disinfectant wipes between patients.**

Patient Transport - Limit the movement/transport of the patient from the room to essential purposes only. During transport, minimize the spread of droplets by placing surgical mask on patient, if possible.
